Security clearance

In cases when the normal security background check and register control has not yet been accomplished before starting work at Ringhals, foreign personnel shall submit a Security Clearance certificate in advance.

The security clearance may consist of documented access to another nuclear plant or if such does not exist, a certificate based on the police records from the country of residence shall be presented. Such a certificate shall be issued by the police authorities or similar in the native country.

The certificate shall be written in Swedish or in English. In case of a translation from a foreign language the translation should be attested.
