

A family-owned cafe in Dalmellington

The Bacas cafe supplies filled breakfast rolls every Friday morning to workers at South Kyle.

They first started supplying the site in August 2020 after a local youth project, The Zone, put them in touch with Vattenfall. With work just getting underway on site, but covid restrictions in place, the project team wanted to contract a local business to supply hot, filled breakfast rolls to site every Friday morning.

Owner Billy Loy said: "We wouldn't normally put ourselves out there for this sort of corporate contract, but 2020 had been a year of real ups and downs, so we decided to give it a go. After all, if we didn't try, someone else would!"

"When the first lockdown hit that spring, we'd had to close and furlough staff, and when we did re-open it was for collections only, so the Vattenfall contract has been a welcome boost."

Together with his wife and son, Billy now prepares and delivers a large order to the site team every Friday morning, "They're always happy to see me driving up the hill to the site gate with a boot full of hot, bacon rolls!"

Investing in places

When Vattenfall builds a wind farm, we focus on bringing investment and opportunity for local communities.

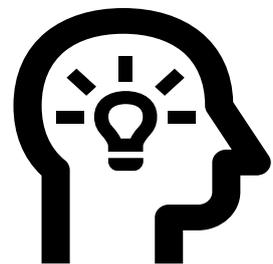

We take a place-based regional perspective, and work with communities, suppliers and partners to not only co-ordinate how our investments might benefit specific localities, but to additionally explore and create regional opportunities for local businesses, skills development, and the natural environment.

Sign up for supply chain updates

There are companies of all sizes and backgrounds working and thriving in the wind industry. If you would like to be considered as a supplier please email

southkyle.windfarm@vattenfall.com

Tell us your ideas

If you know a local company who could supply us or have an idea for how we might create additional opportunities and benefits for the region please get in touch and tell us.
