

Norfolk Zone Community Benefit Fund

Phase 3 - developing ideas with local knowledge and examples

Happisburgh – Thursday 15th June 2023
Welcoming surrounding communities

VATTENFALL

Aims for this evening:

1. Meet people in your community who have shared interests and ideas that funding could support
2. Learn about Vattenfall's Community Benefit fund and the story so far, following two previous phases of engagement
3. Find inspiration from local organisations and groups who have benefitted from similar funds previously, and who share your interests in climate smarter projects for your community
4. Gain advice and tips from these guests to help shape your ideas into great projects, to leave long-lasting benefits for your communities
5. Any children attending this evening, will be helped to draw and talk about their own ideas for climate smarter living

**Climate
Smarter
Community
Living**

6-8pm Thursday 15th June Agenda

Time	Session
17:45	Arrivals
18:00	Welcome, introductions, quick recap
18:15	<p>Case study examples of funded projects from local experts, sharing insights like what inspired them to make their project a reality; how their projects are climate smarter and sustainable – good for local people and the planet; and providing a few key tips / learnings for community groups wanting to develop their own projects.</p> <ul style="list-style-type: none">- Nigel Boldero from St Peter's Church, Haveringland, and the Norfolk Green Care Network- Jane Bishop from North Norfolk Community Transport
18:45	<p>Carousel conversations</p> <p>For the next hour, you will have the opportunity in groups to visit and talk about your projects and the themes of this workshop. Under the guidance of our expert speakers, and with like-minded people, you will be encouraged to progress your idea. What questions do you need to consider to strengthen your plans?</p> <p>After this evening we'd love you to have some actions in mind, that will help you and your community group move forward with, getting you closer to apply for funding, with a strong project.</p>
19:45	Reflections and Q&A
19:55	Next Steps – keeping in touch with the Norfolk Zone team
20:00	Thanks and Closing Remarks

Vattenfall offshore wind projects

Geographical overview – Vattenfall offshore wind farms

Assets in operation

Assets under construction

Ambition for 2030

Norfolk Zone Project Updates

Continuing to engage with all levels of education across Norfolk, from primary up to further education and university

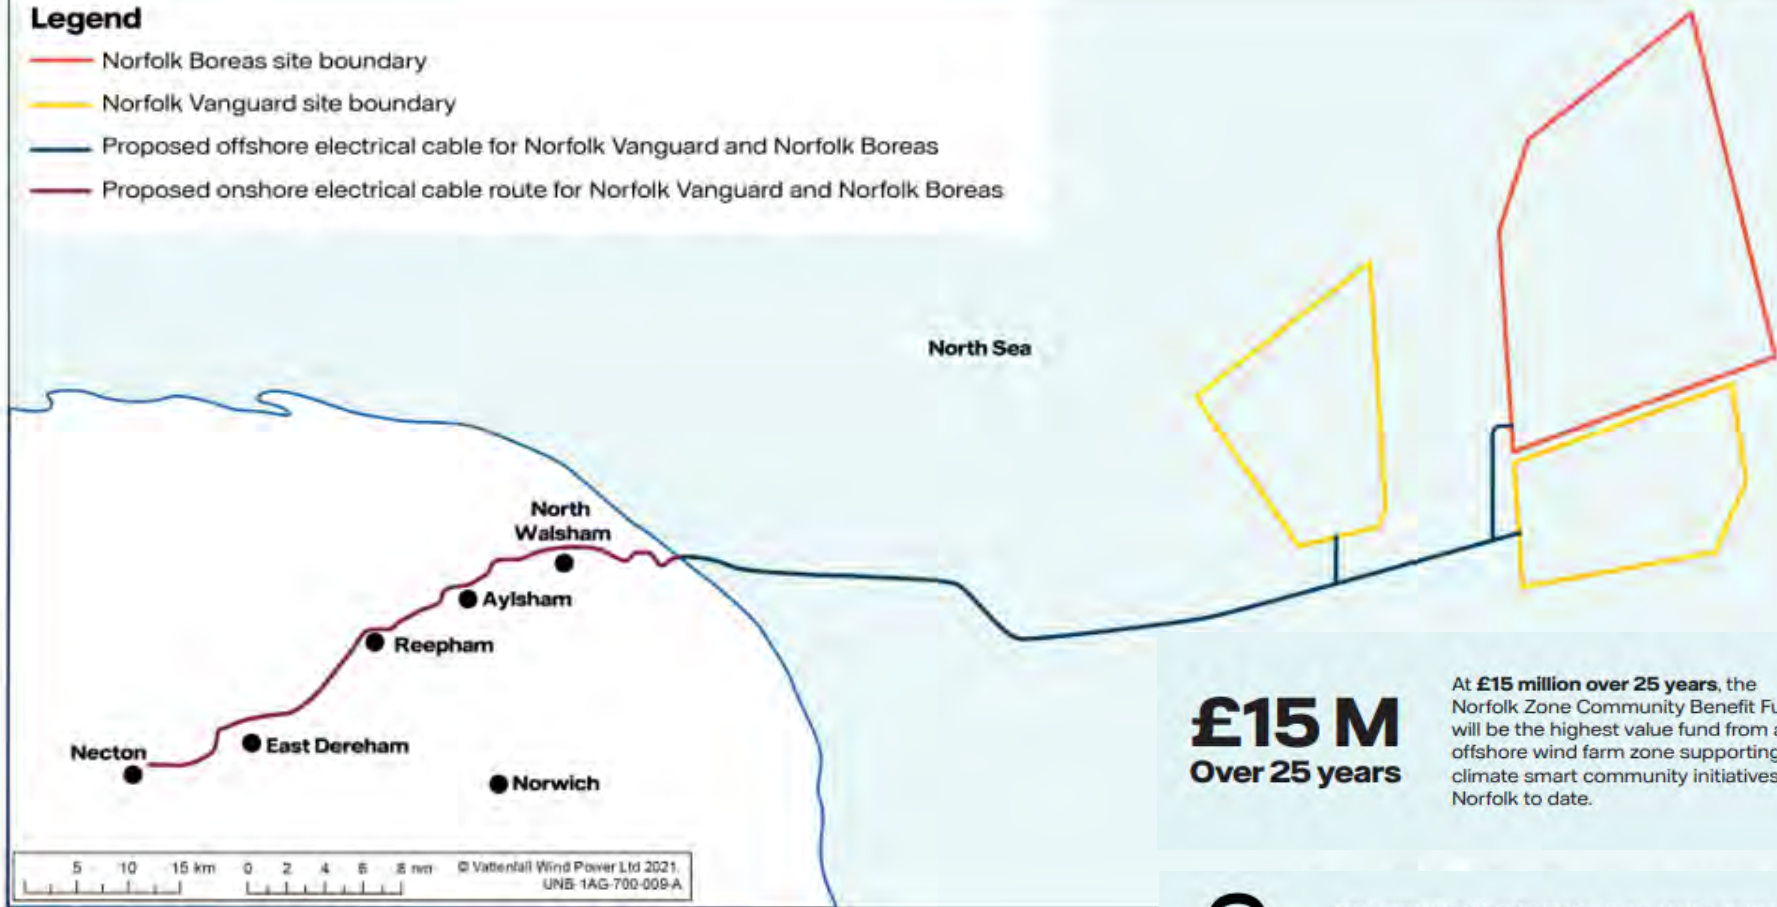

Left – our 3DW programme in action with year 8s at Aylsham High School

Successful Supply Chain events such as the Southern North Sea Conference at the end of May this year, following agreed contracts with our Tier 1 contractors regarding construction of the Norfolk Zone.

Legend

- Norfolk Boreas site boundary
- Norfolk Vanguard site boundary
- Proposed offshore electrical cable for Norfolk Vanguard and Norfolk Boreas
- Proposed onshore electrical cable route for Norfolk Vanguard and Norfolk Boreas

£15 M
Over 25 years

At **£15 million over 25 years**, the Norfolk Zone Community Benefit Fund will be the highest value fund from an offshore wind farm zone supporting climate smart community initiatives in Norfolk to date.

Once established, **local people** will provide the management and appropriate governance to ensure the Norfolk Zone Community Benefit Fund will meet the interests and needs of beneficiary communities, over its lifetime.

VATTENFALL

The story so far: Phase 1

Our initial dialogue – “Give my View”

We received
1,499 responses

of people are positive
about Norfolk's leading
role in delivering green
power - particularly from
offshore wind.

The following were the top reasons selected as the
main benefits of developing offshore wind off Norfolk:

Maintaining the
region's leading role in
the green energy
industry

Climate action

UK home grown,
secure energy supply

Green jobs

The story so far: Phase 2

Localised workshops

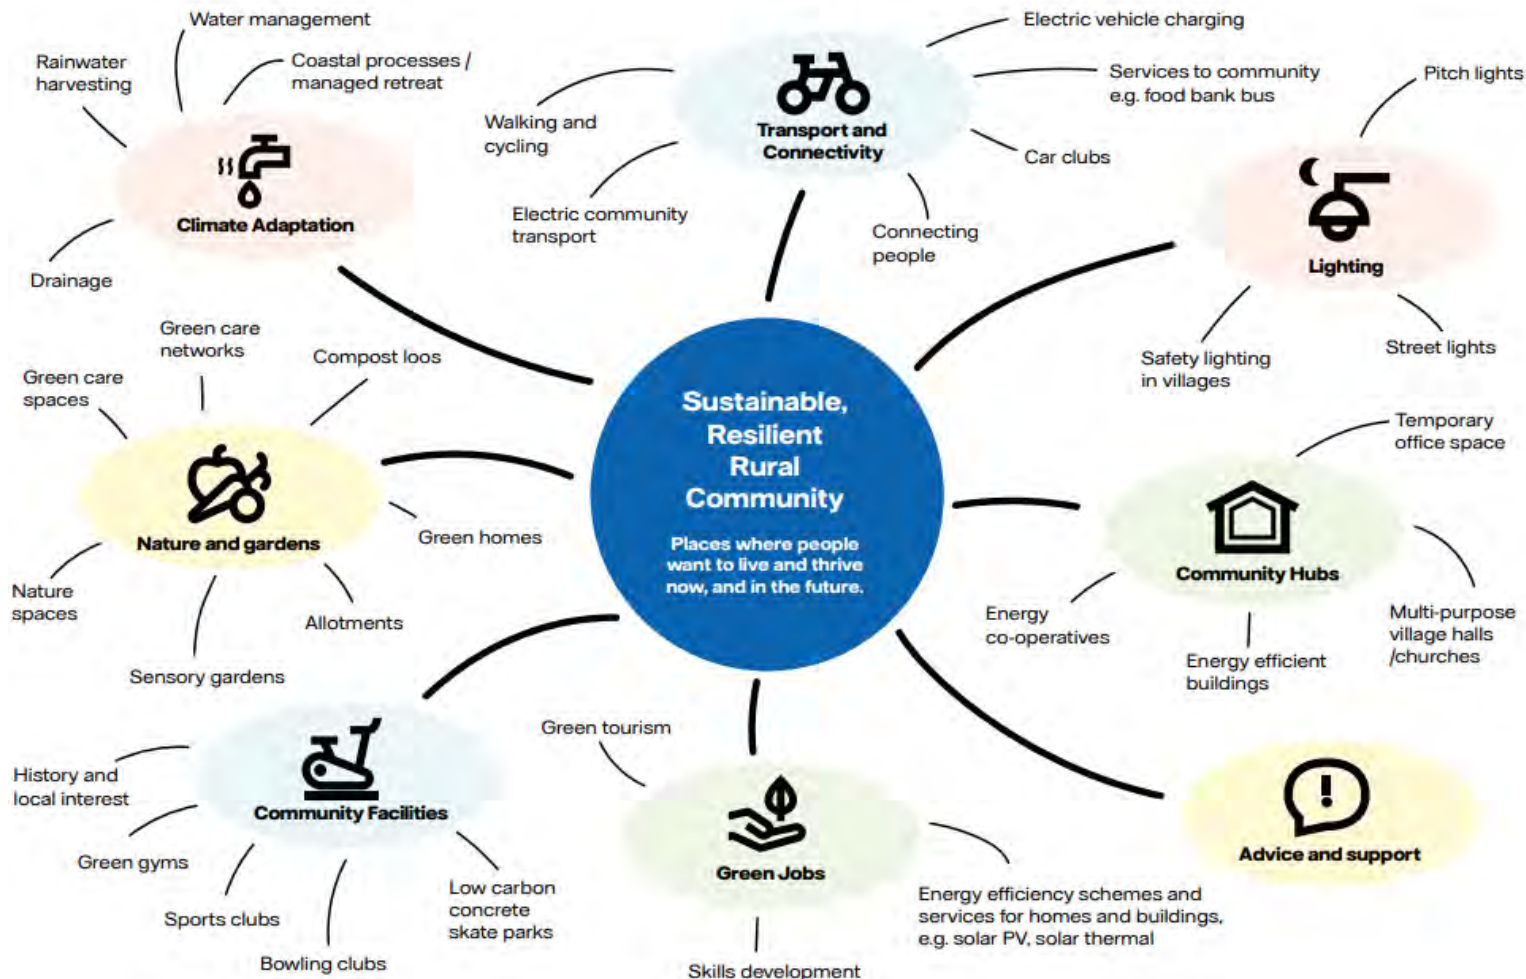

You can read a report from each of these meetings and a summary of the story so far on our website here:

[Norfolk Zone Community Benefit Fund - Vattenfall](#)

Between January and August last year, we held 6 localised workshops in the towns and villages on the map, inviting surrounding parishes too.

Attended by over 110 people, these were valuable meetings to introduce the fund to you, but also for us to understand further the sorts of projects likely to be submitted.

Phase 3 meetings:

- **Necton 6 June – Community Hubs, Community Facilities, Lighting, Nature & Gardens**
- **Reepham 7 June – Community Hubs, Transport & Connectivity, Lighting**
- **North Walsham 13 June – Community Hubs, Advice & Support, Green Jobs, Nature & Gardens**
- **Happisburgh 15 June - Community Hubs, Transport & Connectivity, Nature & Gardens**
- **Dereham 19 June – Green Jobs, Climate Adaptation, Transport & Connectivity**
- **Aylsham 21 June - Transport & Connectivity, Nature & Gardens, Community Facilities, Advice & Support**

So far...

Phase 1 - Summer 2021

Phase 2 - throughout 2022

Phase 3 - from summer 2023

Phase 4 - 2023

Phase 5 - within 1yr
construction start

Initial region-wide survey to establish current attitudes.

1500 participants gave their views.

So far...

A series of local workshops to begin identifying community-specific ideas have been completed. Please see reports on website.

Currently...

Thematic workshops to develop potential projects, based on local interests and needs.

Next stages...

Defining fund criteria and consideration of appropriate administration to ensure the fund is responsive to local interests and needs.

Next stages...

Establishing fund governance, including recruitment of local decision-making panel. Community Benefit Fund ready to accept applications.

Themes we are exploring this evening

Community Hubs

Guest speaker:

Nigel Boldero –

St Peter's Church, Haveringland

Transport and Connectivity

Guest speaker:

Jane Bishop –

North Norfolk Community
Transport

Nature and Gardens

Guest speaker:

Nigel Boldero –

Norfolk Green Care Network

St. Peter's Haveringland

- Festival Church
- Community Hub
- Heritage Centre
- Anchor in promoting nature recovery
- Arts and Cultural venue

*Serving the local community
and communities of interest...*

Building the Future: Repairing the Past

- £250,000 of National Lottery Heritage Fund and other grants
- **Repairs** – drains, roof, glass, plasterwork and relining etc.
- **Improvements**- access, door opening, vestry, welcome area, heritage console and games, water supply, heating and lighting, audio system, more flexible space
- **Activities**- heritage related

Building the Future:
Repairing the Past

When?

Repairs

Improvements

Activities

October 2023- February 2024

March 2024-
December 2025

Activities

- **Haveringland Chronicles**- research, website, 'Victorian Village' (Cawston School and Puppet Theatre), exhibition
- **RAF 100+**- research, memorial church, church trail, exhibition
- **William of Norwich (and Haveringland)**- 'Blood Libel' play performances, conference and exhibition
- **Haveringland Together** – Community hub, wellbeing through heritage, silences and retreats, 'Living Landscape' (biodiversity improvement)
- **Churches Through Time**- St. Peter's case study- 'Reimagining Rural Churches' conference, exhibition, 'Ten Towers Trail', new Church Guide

‘Stage 2’

A safe, comfortable and sustainable place....

- An inside, all access WC and baby changing area
- A Kitchen/servery

We need £60,000 and have
so far raised around
£16,000...

Building the Future:
Repairing the Past

Vattenfall
Community Benefit Fund workshop
15th June 2023

North Norfolk Community Transport

Our Vision

Helping people go to places together

Our Mission

To enhance quality of life by supporting people to access local services and connect with their community and others

Our objectives:

- To develop and provide accessible transport initiatives that support people to connect to others and to their local community
- To develop and provide accessible transport initiatives that support people to access important local services
- To support other charities and community groups to transport their members and connect with others

Our Values

We Care

We focus on people, and what matters to them

We Connect

We link people, places, and communities together

We Collaborate

We work with others to achieve the greatest impact we can

Our Services

Dial-a-Ride

A door-to-door shopping service to local market towns

Excursions

Trips to places of interest – passengers decide where they want to go

Wheelchair Accessible Transport

To medical appointments, to see family and friends, or social activities

Group Transport

Affordable minibus and driver hire for groups who cannot afford or don't want to buy their own bus

Sustainability strategy for the organisation to reduce any negative impact on the environment

- Reducing our use of single-use plastics throughout our operations
- Incorporating alternative fuel technologies as they become available
- Working with other companies who share our values around sustainability
- Increasing the proportion of vehicles in the fleet that are not fuelled by diesel
- Calculating our scope 1 and 2 carbon emissions so that we can aim to reduce them
- Producing a carbon reduction action plan

Measures of success:

- Vehicles in the fleet which do not use diesel to be 20% by January 2024
- Reduction in our carbon footprint demonstrated annually

NNCT accepts that increasing atmospheric carbon levels in the atmosphere are having profound effects on the environment including rising atmospheric temperatures and changing weather patterns. People around the World experience more frequent extreme weather events which are now impacting on the way people and wildlife are living their lives. Sea levels are rising as the temperature of our planet increases. Rising seas erode shorelines and destroy ecosystems, coastal cities and towns could be displaced by rising seas.

As a charity that cares about people, we want to make our own contribution to lowering the environmental impact of our activities.

In line with this NNCT has measured its own scope 1 and 2* emissions for the base year 2022 (January to December) at 35 tonnes of carbon equivalent.

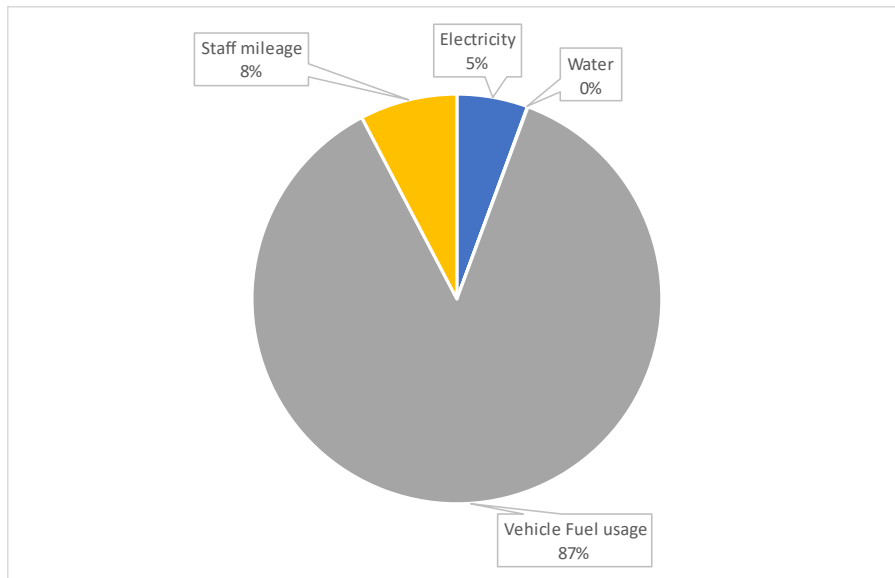

Our 2022 Scope 1 and 2 Emissions

Carbon usage analysis	Year	Assumptions	Conversion factor*	Emissions (tCO2e)
	2022			
Electricity (kWh)	10,150		0.193	1.96
Gas (kWh)	N/A			
Water (m2)	36	Supply and treatment	0.421	0.02
Vehicle Fuel usage (Litres)	11,862.30	Diesel	2.558	30.34
Staff mileage (miles)	9,780	Average car - diesel	0.2749	2.69
Total				35.0

North Norfolk Community Transport

Vattenfall Community Benefit Fund could support us by expanding our fleet of zero emission vehicles and helping us drive down our carbon footprint. We would like our passengers to enjoy our services with minimal impact on the environment.

Green Care and Norfolk Green Care Network

- ▶ What is 'green care'?
- ▶ Impact- what's the evidence?
- ▶ The Network
- ▶ Challenges and responses

Nigel Boldero
Initiator and Convenor

What is Green Care?

*'Moment
s not
minutes'*

Norfolk Green Care Network

- 3 years old
- Around 300 members- wide range of involvement, expertise and interest
- 'Norfolk plus'
- An 'Unincorporated Association' with volunteer *Network Support Team* and *Advisory Group*

Our vision:

*Enabling people to
connect with
nature...*

- ▶ *to better
understand it*
- ▶ *promoting health
and well being*
- ▶ *caring for the
environment*

So

- *Climate change...*
- *Biodiversity loss...*
- *Poor health...*
- *Poverty...*

OMG?

‘Hosts of Hope’

- ✓ Active involvement leading to understanding and changing lifestyles
- ✓ Action at different scales

'Britain as a whole is one of the most nature-depleted countries in the world. Never has there been a more important time to invest in our own wildlife. To try and set an example to the rest of the world and restore our once 'Wild Isles'..

Sir David Attenborough

Community-led nature recovery (‘rewilding’)

www.ngcn.uk

Norfolk Green Care Network- community nature

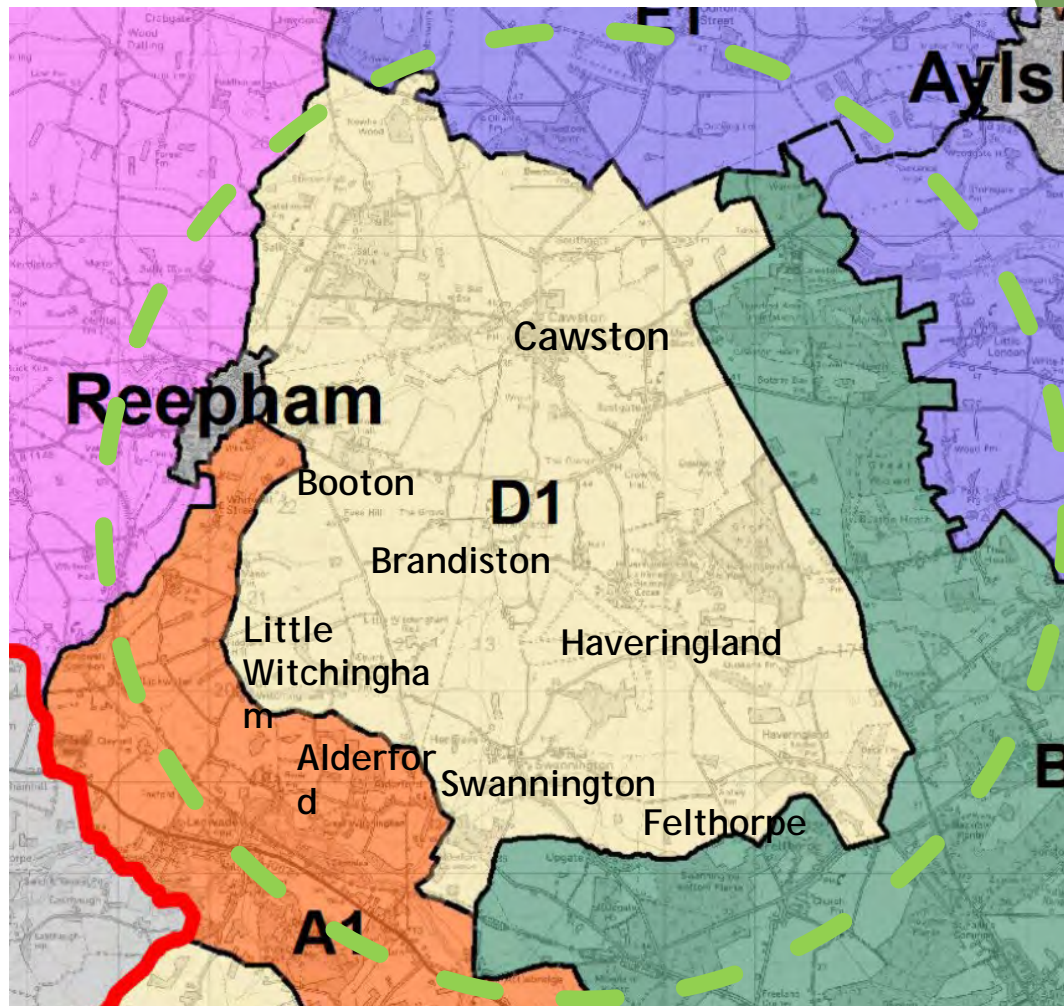

Living Landscape

- ▶ To review the current **landscape**, look at its potential and take action to improve habitats, food sources etc. to increase the diversity of nature, mitigate climate change and improve health.
- ▶ A **collective community response** to the landscape as it is and its potential for improvement; this could involve action on the ground ..or just leaving some areas to 'go wild'!

Workshop "Carousel"

For the next hour, we invite you to visit each carousel station for around 20 minutes per topic. Thinking about projects in your community, under these broad themes, consider together:

- **List project ideas / options**
- **What lasting benefit(s) can the project offer your community?**
- **Who will be the users and beneficiaries? Is there broad local support / interest already? How can that be enhanced?**
- **Are there other potential funders / supporters who can help (match funding / advice / facilities)?**
- **Is the project self-sustaining over the long term?**
- **Are any special permissions (planning) required, feasibility studies or business plans?**

A photograph of white laundry, including sheets and towels, hanging on a clothesline outdoors. The laundry is secured with wooden clothespins. In the background, there are green trees and a blue sky with some clouds. The word "Questions" is superimposed in the center of the image.

Questions

Thank you for coming!
