

Norfolk Zone Community Benefit Fund

Phase 3 - developing ideas with local knowledge and examples

Necton – Tuesday 6th June 2023
Welcoming surrounding communities

VATTENFALL

Aims for this evening:

1. To continue the Norfolk Offshore Wind Zone Community Benefit Fund dialogue, specifically helping you refine your potential applications to the Fund
2. Meet people in your community who have shared interests and ideas that funding could support
3. Learn about the dialogue we've shared so far
4. Find inspiration from local organisations and groups who have benefitted from similar funds previously, and who share your interests in climate smarter projects for your community
5. Gain advice and tips from these guests to help shape your ideas into great projects, to leave long-lasting benefits for your communities

**Climate
Smarter
Community
Living**

6-8pm Tuesday 6th June Agenda

Time	Session
17:45	Arrivals
18:00	Welcome, introductions, quick recap
18:15	<p>Case study examples of funded projects from local experts, sharing insights like what inspired them to make their project a reality; how their projects are climate smarter and sustainable – good for local people and the planet; and providing a few key tips / learnings for community groups wanting to develop their own projects.</p> <ul style="list-style-type: none">- Debbie Thompson from Sheringham Little Theatre- Rex Warner from Reepham Climate Challenge- Tom Greenwood from The Papillon Project
18:45	<p>Carousel conversations</p> <p>For the next hour, you will have the opportunity in groups to visit and talk about your projects and the themes of this workshop. Under the guidance of our expert speakers, and with like-minded people, you will be encouraged to progress your idea. What questions do you need to consider to strengthen your plans?</p> <p>After this evening we'd love you to have some actions in mind, that will help you and your community group move forward with, getting you closer to apply for funding, with a strong project.</p>
19:45	Reflections and Q&A
19:55	Next Steps – keeping in touch with the Norfolk Zone team
20:00	Thanks and Closing Remarks

Vattenfall offshore wind projects

Geographical overview – Vattenfall offshore wind farms

Assets in operation

Assets under construction

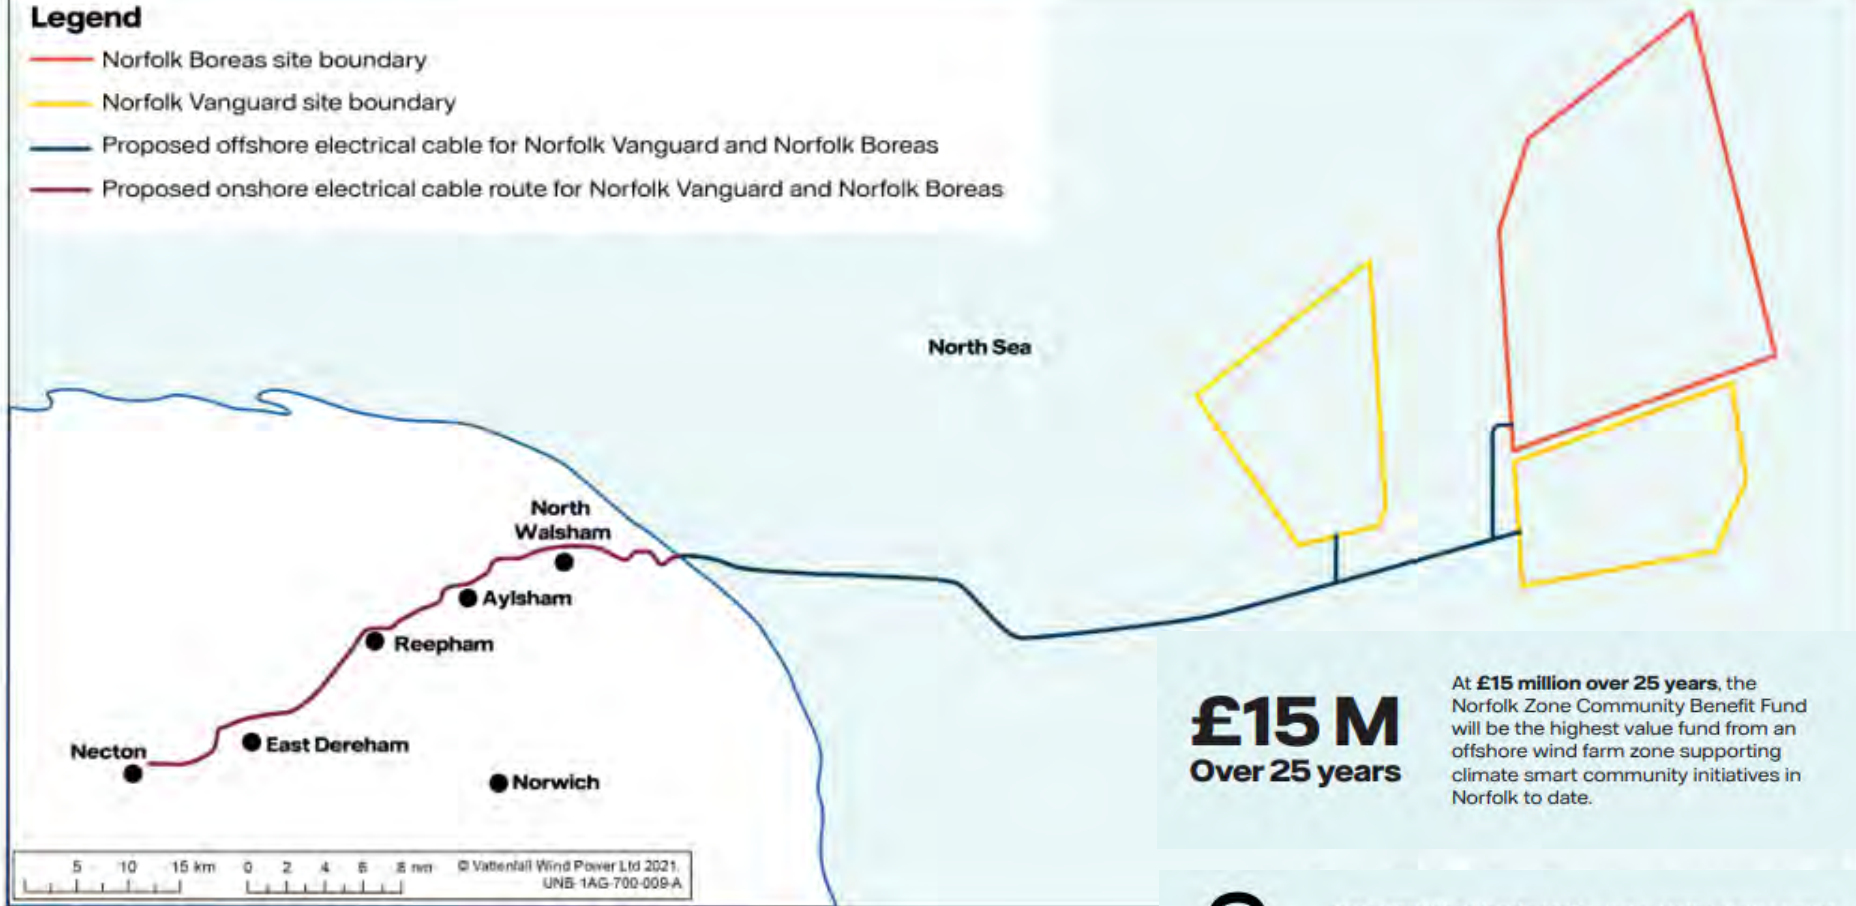

Ambition for 2030

Legend

- Norfolk Boreas site boundary
- Norfolk Vanguard site boundary
- Proposed offshore electrical cable for Norfolk Vanguard and Norfolk Boreas
- Proposed onshore electrical cable route for Norfolk Vanguard and Norfolk Boreas

£15 M
Over 25 years

At **£15 million over 25 years**, the Norfolk Zone Community Benefit Fund will be the highest value fund from an offshore wind farm zone supporting climate smart community initiatives in Norfolk to date.

Once established, **local people** will provide the management and appropriate governance to ensure the Norfolk Zone Community Benefit Fund will meet the interests and needs of beneficiary communities, over its lifetime.

VATTENFALL

Norfolk Zone Project Updates

Continuing to engage with all levels of education across Norfolk, from primary up to further education and university

Left – our 3DW programme in action with year 8s at Aylsham High School

Successful Supply Chain events such as the Southern North Sea Conference at the end of May this year, following agreed contracts with our Tier 1 contractors regarding construction of the Norfolk Zone.

The story so far: Phase 1

Our initial dialogue – “Give my View”

We received
1,499 responses

of people are positive
about Norfolk's leading
role in delivering green
power - particularly from
offshore wind.

The following were the top reasons selected as the
main benefits of developing offshore wind off Norfolk:

Maintaining the
region's leading role in
the green energy
industry

Climate action

UK home grown,
secure energy supply

Green jobs

The story so far: Phase 2

Localised workshops

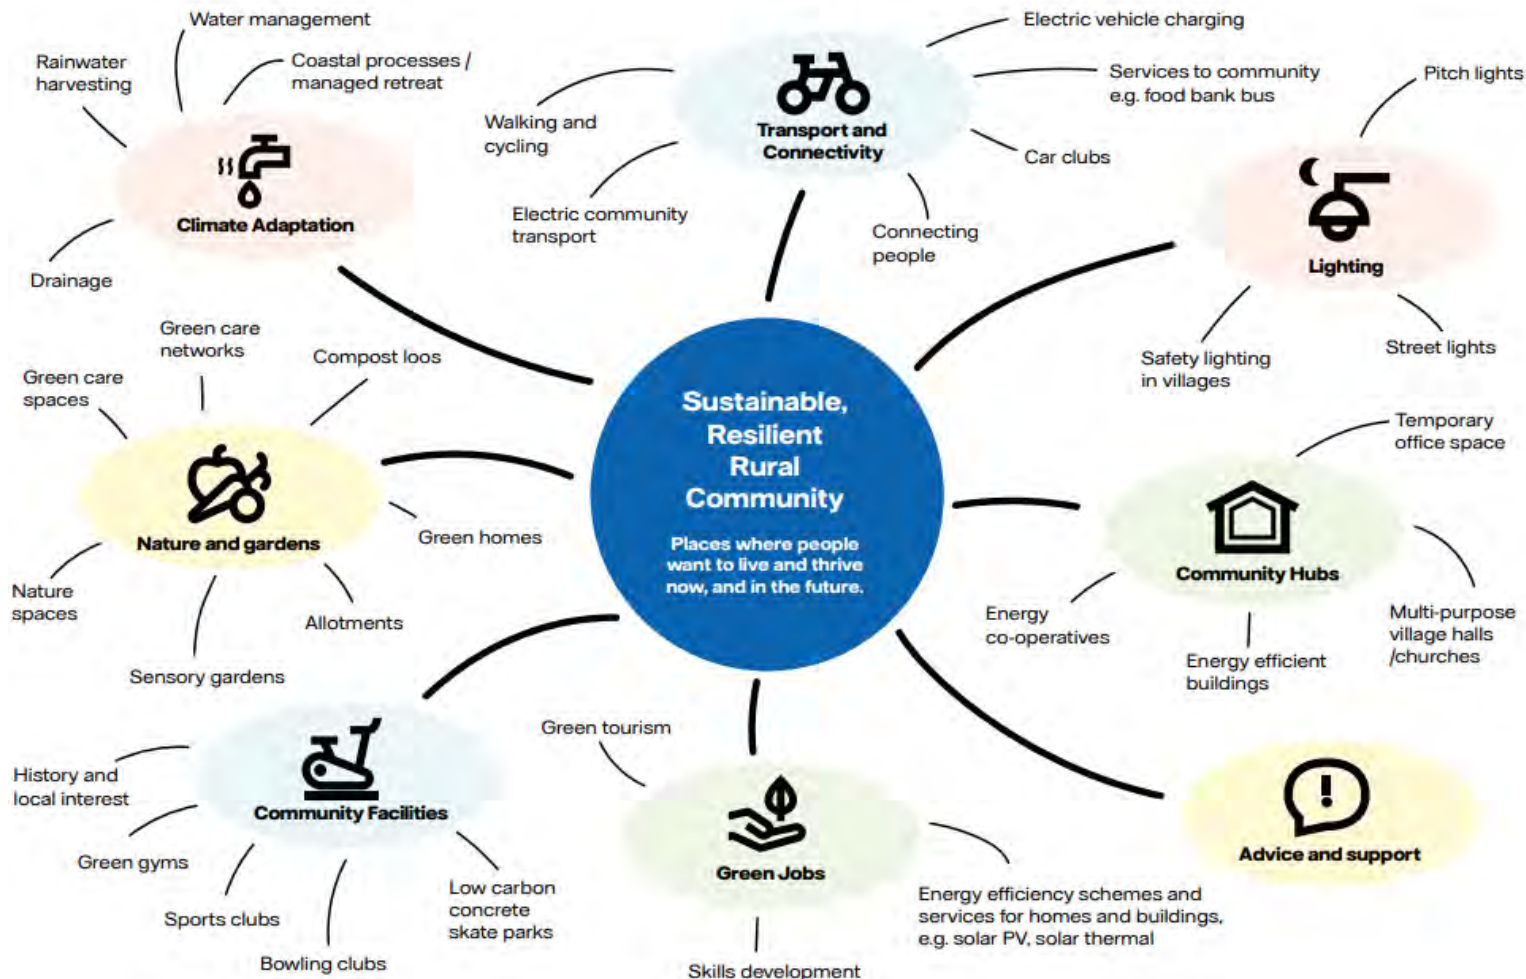

You can read a report from each of these meetings and a summary of the story so far on our website here:

[Norfolk Zone Community Benefit Fund - Vattenfall](#)

Between January and August last year, we held 6 localised workshops in the towns and villages on the map, inviting surrounding parishes too.

Attended by over 110 people, these were valuable meetings to introduce the fund to you, but also for us to understand further the sorts of projects likely to be submitted.

Phase 3 meetings:

- **Necton 6 June – Community Hubs, Community Facilities, Lighting, Nature & Gardens**
- **Reepham 7 June – Community Hubs, Transport & Connectivity, Lighting**
- **North Walsham 13 June – Community Hubs, Advice & Support, Green Jobs, Nature & Gardens**
- **Happisburgh 15 June - Community Hubs, Transport & Connectivity, Nature & Gardens**
- **Dereham 19 June – Green Jobs, Climate Adaptation, Transport & Connectivity**
- **Aylsham 21 June - Transport & Connectivity, Nature & Gardens, Community Facilities, Advice & Support**

So far...

Phase 1 - Summer 2021

Phase 2 - throughout 2022

Phase 3 - from summer 2023

Phase 4 - 2023

Phase 5 - within 1yr
construction start

Initial region-wide survey to establish current attitudes.

1500 participants gave their views.

So far...

A series of local workshops to begin identifying community-specific ideas have been completed. Please see reports on website.

Currently...

Thematic workshops to develop potential projects, based on local interests and needs.

Next stages...

Defining fund criteria and consideration of appropriate administration to ensure the fund is responsive to local interests and needs.

Next stages...

Establishing fund governance, including recruitment of local decision-making panel. Community Benefit Fund ready to accept applications.

Themes we are exploring this evening

Community Hubs

Guest speaker:

Debbie Thompson –
Sheringham Little Theatre

Community Facilities and Lighting

Guest speaker:

Rex Warner –
Reepham Challenge

Nature and Gardens

Guest speaker:

Tom Greenwood –
The Papillon Project

Sheringham Little Theatre – Community Hub Project

Presented by Debbie Thompson (Theatre Director)

Andrew Woodley – Building Surveyor

Guest Speaker – we welcome

Rex Warner MBE – Reepham Low Carbon Communities Challenge

Projects delivered by 16 community groups include:

- Replacement of 35 street lights with LEDs, creating 65% energy reductions and 90% maintenance reductions
- Electric heat pumps and solar thermal for community buildings
- Norfolk Car Club, an electric minibus

REEPHAM Low Carbon Communities Challenge

Schools' Project Lead & founder

THE PAPILLON PROJECT

In a nutshell...

The Papillon Project is an educational charity (1189383) that promotes sustainable living and environmental awareness for young people.

It's our continued privilege to work with secondary schools, sixth-form colleges and Pupil Referral Units in Norfolk to inspire young people to grow their own food for themselves and their local community. It is our very dedicated mission to help rehearse the next generation to know how to grow their own food so we can all start to live in a world that is greener and far more sustainable.

Examples of our charitable work from around the county...

The Papillon Project runs two core programmes:

- **Transformative Programme**
- **DIY Programme**

And an array of additional programmes to enrich the work of the charity too...

Examples from the 30+ school we work with from across Norfolk

Who do we work with?

VATTENFALL 

Why is it important?

Learning important life skills

It's extremely important that the next generation know where their food comes from and how they can grow food for themselves.

It's good for the environment

If we can all grow our food locally to where we live and work, this would be a major contribution to combating climate change.

It's good for the environment

If we can all grow our food locally to where we live and work, this would be a major contribution to combating climate change.

It's good for mental health

It's proven that spending time outside is extremely good for our mental wellbeing

WE can
AND
will CHANGE
THE
WORLD

Thank you

VATTENFALL 

Workshop "Carousel"

For the next hour, we invite you to visit each carousel station for around 20 minutes per topic. Thinking about projects in your community, under these broad themes, consider together:

- **List project ideas / options**
- **What lasting benefit(s) can the project offer your community?**
- **Who will be the users and beneficiaries? Is there broad local support / interest already? How can that be enhanced?**
- **Are there other potential funders / supporters who can help (match funding / advice / facilities)?**
- **Is the project self-sustaining over the long term?**
- **Are any special permissions (planning) required, feasibility studies or business plans?**

A photograph of white laundry, including sheets and towels, hanging on a clothesline outdoors. The laundry is secured with wooden clothespins. In the background, there are green trees and a blue sky with some clouds. The word "Questions" is superimposed in the center of the image.

Questions

Thank you for coming!
