Once the currently approved commercial windfarms for this area have been constructed I believe no more should be approved unless they are community owned in conjunction with energy storage (in multiple forms) combined with community owned micro-grids. One exception might be Vattenfall's proposal as a state owned company that I believe genuinely wants to work with our

It was 'rocky roads' all round at Vattenfall's South Kyle Wind Farm earlier this month as a local tearoom helped the major construction project by fulfilling an order for 300 tray bakes.

Carsphairn Tearooms rose to the challenge of baking a bulk order of tasty treats for the wind farm site after the Vattenfall team got in touch with their plans to mark Employee Appreciation Day and thank staff, contractors and suppliers working on the major construction project.

## St Xavier's enjoy new feature of playground donated by South Kyle Wind Farm team

ST Xavier's Primary have been enjoying a new feature of their playground donated by the South Kyle Wind Farm team.

Developer Vattenfall arranged for a dozen logs to be delivered to the school after seeing an online appeal, with contractor Euroforest

sourcing and cutting the logs to size to meet requirements, using timber from the wind farm site. A spokesperson for Euroforest

said: "We were delighted to help Vattenfall in assisting the local primary school with this excellent community project."

Cummock Development Trust (NCDT) who delivered an Easter All Star Sports

By: Tom April 13-15, NCDT delivered three sessions of different sports including

soccer, rugby and rounders to primary aged kids in the community.

Activities and staff were provided by Active Schools and Cummock Rugby Club and NCDT provided free packed lunches for every child in attendance which were funded from the Investing in Communities funding that the Trust are awarded as well as a donation from South Kyle Windfarm (K) McLeod & Partners.

### Litter Stars

In collaboration with Developing Young Workforce, South Kyle Wind Farm's contractor RJ McLeod recently ran a poster competition. Children from primary schools across Ayrshire were invited to design a 'stop littering' poster and almost 400 entries were submitted!

Well done to all the children from the participating schools: Bellsbank, Dykesmain, Ferwick, Kingcase, Monkton, Newmilns, St John's, St Patrick's, Symington, Troon, West Kilbride and Winton.

**And a huge congratulations to Darci McIntyre of Symington Primary School (P7) whose poster will now be reproduced and posted across South Kyle Wind Farm.**

In fact, we thought it was such an important message that we've dedicated a whole page to it (see page 6).

Andy Gillan, RJ McLeod Project Manager said: "A big thank you to all of the pupils from the local schools in Ayrshire who sent in poster competition entries. We were blown away by the response. All of the posters were really great and we had a fun time looking through each and every one of them. It was especially difficult to choose the winners among such high quality entries. Thank you."

### Recycling Paper Project

Old technical drawings and designs have been recycled from the site team as doodling paper for the children of Bellsbank Early Childhood Centre, with funding for new pens and crayons for the pre-schoolers.

### New South Kyle Wind Farm contract secured

Power company Vattenfall has awarded a £67 million contract to Scottish firm RMC McLeod to construct its South Kyle Wind Farm near Dalmellington. RMC McLeod will lead the construction of the country's newest onshore wind farm and will work to deliver roads and access tracks, electrical infrastructure, turbine foundations and other infrastructure.

Frank Elsworth, Vattenfall's UK Development Director, Onshore Wind, said: "Constructing a wind farm is about so much more than just building a green power station. This is about creating and sustaining an industry that offers people a real future in a renewable career."

"As well as bringing fossil-fuel free using a step closer, we want to ensure that businesses close to our wind farms have the chance to take full advantage of the opportunities developments like South Kyle can create."

### Public invited to attend South Kyle wind farm community investment fund talks beginning today

By Calam Pengilly | @CalPeng Reporter

Vattenfall will be building the South Kyle wind farm.

Facebook, Twitter, LinkedIn, YouTube, Email, Comment

Residents of Carsphairn, Dalmellington, New Cumnock and Patna are being invited to join the first in a series of workshops to discuss South Kyle Wind Farm's community investment fund.

The events, part of Vattenfall's pledge to invest in the local communities neighbouring the site, which is around 5km east of Dalmellington, are being held online and the first two sessions are today (Wednesday, October 28) at 1pm and 7pm. Two more sessions will follow on Wednesday, November 4 at 1pm...

Vattenfall, who are building the D-turbine wind farm, are carrying out the discussions in partnership with Foundation Scotland, a charity that supports developers and communities set up and implement community benefit...

South Kyle Wind Farm

South Kyle Wind Farm Community Investment Fund

South Kyle Wind Farm opens to the Carsphairn, Dalmellington, New Cumnock and Patna areas.

South Kyle Wind Farm is working with local communities to deliver for local people.

Information about the fund has been shared with local people.

### Online workshops to outline South Kyle Wind Farm's Fund

Work towards the creation of the South Kyle Wind Farm Community Investment Fund to take another step forward with a series of online workshops. The first in a series of workshops to discuss the South Kyle Wind Farm's community investment fund will be held today (Wednesday, October 28) at 1pm and 7pm. Two more sessions will follow on Wednesday, November 4 at 1pm and 7pm.

The workshops will consider examples of projects from elsewhere in Scotland where community benefit has made a real difference. The workshops will be held at 1pm and 7pm on Wednesday, October 28, and on Wednesday, November 4. The workshops will be held at 1pm and 7pm on Wednesday, October 28, and on Wednesday, November 4.

# Communities involved in next step of South Kyle Wind Farm fund

By FIONNUALA BOYLE

South Kyle Wind Farm will be worth an estimated £38million over 25 years to the Carsphairn, Dalmellington, New Cumnock and Patna areas. A series of 'Inform and Inspire' sessions have been scheduled to look in greater depth at some key priorities raised thus far including tourism and heritage. The workshops will be an opportunity to consider inspirational examples of projects from elsewhere in Scotland where community benefit has made a key contribution.

'We'd love to see as many local people as possible get involved in these discussions.'

Details can be found at www.vattenfall.co.uk/south-kyle and @SouthKyleCommunityFund on Facebook.

# Dalmellington

149 voters from a population estimated at 1,047 (14%)  
74% of respondents were of working age

Top four 'more ofs' sought were:

- Jobs & Training 63%
- Sports & Leisure Activities 51%
- Things to do for teenagers 35%
- Local tourism 34%

Dalmellington respondents saw the biggest barrier to fossil fuel free living as plastic waste.

# Patna

79 voters from a population estimated at 2,179 (4%)  
88% of respondents were of working age

Results showed a strong focus on young people; and the only community to choose events as a key issue.

Top four 'more ofs' sought were:

- Sports & Leisure Activities 47%
- Community Events 42%
- Things to do for teenagers 42%
- Things to do for the under 13s 36%

Patna respondents saw the biggest barrier to fossil fuel free living as how our buildings are heated.

As we build South Kyle Wind Farm, we're working to maximise opportunities for local people and businesses. Our Accommodation Suppliers List is an initiative that invites local people to rent out accommodation to workers [bit.ly/3A7GoAn](https://bit.ly/3A7GoAn)

#onshorewind #SupplyChain

FALL

## South Kyle Accommodation List

### What is it?

The list is an initiative that invites local people to rent out space to workers at South Kyle wind farm.

Although we do our best to ensure the majority of our workforce are recruited locally there are still a number of contractors who need somewhere to stay when they come to site.

We created our accommodation scheme in order to ensure that the most local providers did not miss out - be they hotels, guesthouses, B&Bs, caravan parks, or even residents with a spare room to let.

### Doing things differently

Vattenfall is always looking for ways that our wind farms can have a positive impact on the local communities that host our developments.

We spend a lot of time talking to local communities and making sure we have a good understanding of their challenges and aspirations.

### How does it work?

1. Local people with accommodation send us their details which we add to a database which is made available to all our contractors.
2. Suppliers who are looking for accommodation use the details on the list to contact providers directly.
