

Supporting Local Business

That CoCo Company is a business expanding. When the business grew quickly and beyond its supply capabilities, the company applied to the fund for support to buy new manufacturing equipment. The business that is cafe and sells candles, has gone from strength to strength attracting customers from across the country to the area.

“The business is growing at such a rate that we simply cannot keep up with demand. We have developed a strong customer base both locally here in Wales as well as across the UK. I am grateful to The Pen y Cymoedd Fund for the boost it has given our business and allowed us to grow”
Bridie Phillips, Owner, That Coco Company
