

## Play and Recreation

Swinford community developed their own Pocket Park consisting of new benches and tables and naturalised play equipment, pond, track and wildlife areas to encourage the local community to come out to play and spend time in a local shared space.

A series of grants from Eight Parishes Community Benefit fund coming from Swinford Wind farm provided them with several grants totalling over £10,000 staggered over a few years. This enabled the local community groups to add new elements so that there is something for everyone,
