**Legend** (may not list all map layers, see note below)

- Site boundary
- Indicative wind turbine (LQULL031)
- Site road

The legend may show items turned on in the Layer List at time of printing regardless of whether they were within the visible map extent. Due to limitations of the ESRI WebGIS system, when there are many layers turned on in the map, the legend may not list all items. In these instances, a separate PDF sheet showing only the legend should be created using the "3. Full Page Legend" print option.
