

Rural regeneration

The Cabrach Trust is embarking on an ambitious project aimed at combating outward migration and fostering rural regeneration through the establishment of a distillery and heritage center. The Clashindarroch Wind Farm Community Benefit Fund has donated £253,166.49 to seven projects of the Cabrach Trust.

These range from the reconstruction of the distillery to the creation of a wildlife walk. These grants have enabled the Cabrach Trust to secure an additional £3,806,806 in investment funding that has benefitted their area and supported the Cabrach Trust to continue to deliver their long term vision for regenerating the local area.
